# Day With the Bankers, the Merchants and the Brokers.

## WALL STREET ON THE QUIET AGAIN

Inactivity Again Marks Work of Speculators in Great Gotham

NEW YORK, April 7.-There were signs of staleness in the market's upward movement today, and the action of prices be came decidedly irregular during the day This might have been even more marked had it not been for the atrong sustaining influence of the persistent upward move-ment in United States Steel preferred and the enormous absorption of the second mortgage bends, which made the backbone of the whole market. The auxiliary points of strength were few and were not among the stocks of first importance.

mmong the stocks of first importance.

The most important stocks were inclined to hang back and showed the effects of realizing on their recent advance, in spite of some items of news that might have helped their advance. Among these were good statements of February net carnings by all the railroads in the so-called Harriman group, including Union Pacific and Southern Pacific. The weather map and the crop news continued favorable to the Southwestern grain carriers, but Missouri Pacific, Wabash preferred. Rick Island and Atchison preferred were the only stocks to respond to appreciable extent.

The strength of the United States Steel securities was attributed to consideration of the quarterly report. Amalgumated Copper shared moderately in the strength of the trackings of United States Steel second mortgage bands were alleged to be of an investment character, and improved.

of the matal stocks.

The takings of United States Steel second mortgage bonds were alleged to be of an investment character, and improvement was reported in the bond market generally and in demand for some highgrade investment railroad stocks, preferred stocks included. The extreme case of money is a natural incentive to this kind of buying.

Money was leaned over the end of that year today as low as 4½ per cent per annum, which makes the bolding of many well-secured railrond stocks and bonds attractive.

The outward movement of gold in these circumstances causes little uneasiness. Yesterday's arrival at San Francisco of \$2,50,000 in Japanese gold indicates how the outward drain is made up at another point. The heavy contraction in loans by the banks of England and France reported today indicate the reflux tendency in those money markets following the quarterly settlements and give a small promise of any immediate demand for money. London was a buyer of stocks here this toorning, and helped the early advance. Only in scattered instances did the rise in stocks reach as much as a point, and the activity of the market was much curtailed in the lateir part of the day. The closing was quite active again, but irregular.

The bond market was active and firm. Total sales, par value, \$1,20,00.

United States 2s advanced 9, the 3s registered, the old 4s and the new 4s coupon 14, and the new 4s registered, 5, per cent on all.

Bar silver, 544c. Mexican dollars, 434c. Bonds—Governments strong; railroads

### SIDE ISSUES IN SULLY FAILURE BEING ADJUSTED

NEW YORK, April 7.—The disposition of the surplus of 6900 bales of cotton that had been pledged by Sully & Co. with the Corn Exchange bank was quickly settled today before United States Commissioner Alexander, sitting as a special examiner. The commissioner, with the approval of all the parties to the court that the bank should turn over the surplus to the receivers of Sully & Co., with the understanding that the F. W. Reynolds company of Providence waive its claim because of this disposition of the matter. The dispute was between the Sull company creditors and the Reynolds company.

### Live Stock.

KANSAS CITY. KANSAS CITY, April 7.—Cattle—Receipts, 4000, steady. Native steers, \$3.600

Colds Are Dangerous. How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. For sale by all druggists.

## ARE DISAPPOINTED IN CONFERENCE

Dealers Do Not Find the Results of the Large Influx Come Up to

Conference may have been eminently satisfactory from the religious point of view, but it seems that to many merchants, and to the produce dealers, it has been disappointing. From the way things were shaping at the end of last and the beginning of this week, it looked as if many people were going to benefit large-ly by the great concourse of visitors. But the verdict of most of the large wholesalers is that business has been nothing like what could be expected, considering

like what could be expected, considering the crowds. Whether the visitors brought their meals with them, or whether they have been bodily sustained by the spirit of grace, the fact is that they do not seem to have been much addicted to the vice of buying this time.

Prices in most lines have been stationary. Fruit took a downward turn yesterday. Both California and Utah rhubarb was 1 cent per pound cheaper, and pincapples were made half a dollar less per dozen.

Grain and Provisions. Grain and Provisions.

CHICAGO, April 7.—A decided drop in temperature in the north and west was utilized today as a tonic in the wheat pit here against the sympathetic effect of extreme weakness in corn. July wheat closed 1/2 up; corn is down 12/2/12/2.

Higher cables and favorable weather were early factors in the wheat market diametrically opposed to each other. As a result prices held comparatively steady during the early part of the session. Initial quotations on July were unchanged to 1/2 higher at 85/48/5/c.

For an hour there was little change in the quotations, but suddenly sentiment became bearish, with prices declining rapid.

ly. Weakness in coarse grains induced a whirtwind of liberal selling by commission houses and pit traders. With only a relatively small demand July sold off to 884c. Later in the day a traders who was a consplcuous figure in the corn pit became an active purchaser of wheat, presumably with the object of indirectly forcing up the price of coarse grain in order to create a better market upon which to throw his long corn. The Northwest was also a fair purchaser, led on by a suggestion of a postponement in seeding operations.

Semantional reports were received telling of a radical change in weather conditions in that section, snow and much lower temperature supplanting all at once wide-spread mildness. The consequence was a quick raily in prices. Many of the early short sellers were forced to cover, and this helped in the upturn. The close was firm, with July at 85c, after the price had touched 874c. May ranged between 944c and 85%, and closed at 94%c. Clearances of wheat and flour were equal to 154,200 bushels. Primary receipts were 374,200 bushels. Primary receipts were 374,200 bushels, compared with Esc. 100 bushels a year ago. Minneanolls, buluth and Chicage reported receipts of 25° cars, against 22 cars last week and 18° a year ago.

A big trade was witnessed in corn and the market was extremely nervous. The close was weak and at the low point, July opened ½c lower to be higher at 25%ise, sold between 51%c and 25%, and closed at 18%c. Local receipts were 225 cars, with 80 of the contract grade.

Outs were weak in sympathy with corn. After opening a shade lower to a shade higher at 386354c, July sold between 57%c and 18%c, and closed at 18%c. Local receipts were 120 cars.

Early in the day commission houses were free sellers of provisions, due to lower prices for hogs. This started a raid on the market by local bears, and the result was considerable weakness in all products. The sharp break in corn was an influential bear factor. The market closed weak and near the bottom. July pork being down 27½c at \$12.5c; J
